

Dish towel dryer ROOS

Always a fresh dry dish towel in your kitchen....

8 Watt

230 Volt

Kitchen towel dryer ROOS

Here you easily can hang your wet kitchen towel, hereby avoiding smelling unhygienic kitchen towels never being able to dry in an ordinary kitchen cupboard.

You will now always have a warm and dry kitchen towel to use whenever you wish. You can now use your kitchen towel longer than normal saving both the environment and money.

Temperature:

The surface temperature is approx. 55°-60°C (childproof temperature)

The dryer is provided with a practical switch to set the power on or off.

Guarantee:

5 years guarantee

Approval:

S CE CB EN IP54
